Project Summary

[Provide a synopsis of the project]

Project Aims and Objectives

[How will the tender address all facets of the project?]

Background

[Provide sufficient information to allow an assessment of the overall approach to the project, including a (brief) review of the appropriate literature and the underpinning science integral to the project application. Inclusion of references to support your approach(es) is desirable. Do not repeat the information that has already been specified in the Project Tender]

Methodology Summary

[Provide a high-level overview of the approach(es) to the project and the methodology/methodologies to be used]

Methodology

*[Provide a detailed account of the methodology/methodologies (e.g., experiments, surveys, laboratory analyses, statistical evaluation etc.) that will be used to address the aims and objectives of the project. If appropriate, please provide a **Gantt chart** that illustrates the project schedule]*

Measures of Success

[Should your project aims and objectives be realised, show how these will be demonstrated]
